NOVA

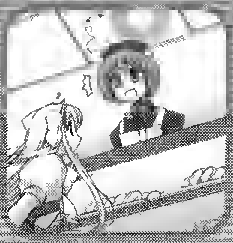
Back to the subject

An explanation of terms found throughout the book.

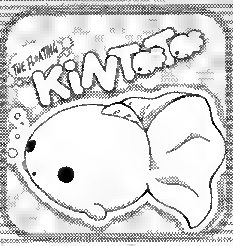
Misaki News <other>

The Misaki News Club runs their newspaper of in-school events every day. The club is amazingly able to work every day and delivers completely accurate news. People in other places are able to read the paper too. With all the confrontations between the World Domination Club and Ally of Justice Club, the Misaki News Club is extremely happy to always have something to write about.



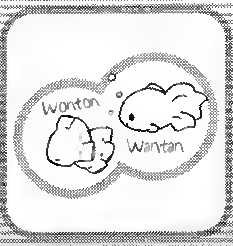
Misaki Donuts (Angel Kinto) <store>

Misaki Donuts started as a chain in Misaki. There are currently six new shops under construction. While they are known for their taste, they also grab the hearts of students with their merchandise line. Their mascot, The Floating Kintoto, is extremely popular. Their best-selling donut, the "Angel Kinto", is shaped to look like Kintoto.



Kintoto <other>

The mascot of Misaki Donuts. Using an angel flower as a base design, they came up with this white goldfish. The fact that it looks cute and harmless probably increases its popularity. Its image has helped make Angel Kinto a number 1 seller. People usually make a big fuss over the idea that you should eat the tail last.



Wantan <other>

Hayana's pet, a pure white goldfish. By the way it swims and seems to float, and by its beautiful tail, Hayana gave it the name Wantan. Just like its owner, it seems to be able to eat great quantities of food without getting fat. Hayana says it looks like an Angel Kinto donut, but if you look closely, it doesn't quite exactly look like it.

Twinkle Saber Nova: a story about the love between a girl and a giant plush goldfish.
